

Cobblestone Backroom — Shane's Quick Reference

A pocket guide to your view of the new bookings system. Most days you won't need much — just a glance at what's coming up. Anything weird, ring Soraya or Tomás.

Logging in

URL: `https://bookings.cobblestonepub.ie/sound`

Username: shane **Password:** sent to you separately — save it in your phone or password manager.

This is your own login — separate from Soraya/Tomás. You'll only see the gigs view; the rest of the manager portal isn't visible to you, which keeps things tidy.

If the URL says "this site can't be reached" the first day, give it an hour for DNS to settle, or use the backup URL: `https://cobblestone-pub.onrender.com/sound`

Your upcoming gigs

After logging in, you land directly on your list — confirmed gigs for the next ~4 months, sorted by date with month dividers.

Each row shows:

- **Date + day of week**
- **Act name**
- **Door time + music start time**
- **Contact email** (band's main contact)
- **Door person TBC** badge — if a gig within 7 days has no door person assigned yet (Tomás's job to sort, but useful to know)
- **Fee paid / Fee outstanding** badge — quick view of which gigs you've already been settled on

Click any row to open the full detail page.

What's on the gig detail page

When you tap into a gig, you see everything that matters to you:

Section	What it shows
Top header	Act + date + day, plus the "Mark fee paid" button (or a "Fee paid ✓" badge if it's already settled)
Details	Door time, music start, support act, door person, expected attendance
Contact	Band's contact name, email (clickable to email them), phone (tap to call)
About the act	Bio + media links (Spotify / Bandcamp / etc.)
Attachments	Posters, tech riders the band has uploaded
Recent emails	Last few exchanges between Tomás and the band — for context
Notes	Anything Tomás has scribbled on the booking

The page auto-updates if Tomás changes a confirmed booking — door times, contacts, support act, notes. So whatever you see is current.

Coordinating sound check / load-in

You're CC'd on the band's confirmation email automatically — they have your email and phone from day 1. But if you want to reach out first:

1. Open the gig
2. Tap the band's email or phone (clickable)
3. Use your usual flow (email / WhatsApp)
4. Confirm sound check time, load-in / load-out, any tech needs

There's no "log my conversation with the band" feature in the app — keep your own notes as you do now.

Marking your fee as paid

When the band pays you on the night (currently you're paid directly for the venue fee that includes your services):

1. Open the gig
2. Tap the green **"Mark fee paid"** button at the top right
3. Confirm the popup

Done. The badge flips to **"Fee paid ✓"** and management's "Outstanding fees" counter drops by one.

If you forget on the night, no problem — mark it next time you're at your phone.

Subscribe to the bookings calendar in your own Google Calendar

So your gigs show up on your phone:

1. In your own Google Calendar, left sidebar → **Other calendars** → + → **Subscribe to calendar**
2. Enter `bookings@cobblestonepub.ie`
3. Save → all upcoming Backroom events now show in your calendar

The colors on that calendar mean: -  Green: form-backed gig (band has submitted info) -  Yellow: calendar-only (we've got the date but no info yet) -  Purple: upstairs / workshop event (not in the Backroom) -  Grey: bar / non-Backroom (not your gig)

When something looks wrong, call us

Issue	Who
Booking detail looks wrong (wrong time, wrong band)	Tomás (he confirms the bookings)
The app errors out / a button doesn't work	Soraya (she manages the system)
Band hasn't responded to you about sound check	Tomás — he can chase them
You see a confirmed gig you didn't know about	Tomás — sometimes new bookings come in fast

Soraya: *(her contact)* Tomás: *(his contact)*

What you can and can't do

You can: - Read everything on your gigs list - Mark fee paid (the only write action you have) - Click links to email / phone the band

You can't (and that's by design — keeps you focused): - See or change booking statuses - Cancel or archive bookings - See past gigs (cutoff is today onwards) - See payroll, PTO,

bookkeeping, KPIs, etc. - Edit any field on a booking

If a booking does need editing (wrong time, wrong band name), tell Tomás — he has full access.

Questions? Ring Soraya or Tomás. Welcome to the new system!
